## **PRESS RELEASE**

### **New Windsor Unified School District Web Site Design**

Windsor Unified School District announces the release of its new school district web site design.

In addition to the clean, friendly new design, the school district's objective was to provide easier navigation. The site was designed from the point of view of web users, so that information is easy to find. Separate tabs put "like" information together for students, parents, and staff. This new design is also friendly to users of different computer platforms.

A notable addition to the site is the Pay Fees tab, which allows parents to pay school and transportation fees on-line. Each school page provides a home page link, with a Map Quest link, school facts, principal information, and a parent contact email link. Coming soon will be the "My Student" tab that will allow parent access to individual student records.

The clean, modern, professional look of the website reflects the advanced educational opportunities available through the Windsor Schools. Visit us at [www.wusd.org](http://www.wusd.org) and learn about the award-winning Kindergarten SKOR reading program through to the many offerings at Windsor High School - Among the high school's many learning "Pathways" are Culinary Arts, Digital Media, Pre Med, Advanced Placement, Honor, Fine Arts, and Environmental Studies.
